Introductory Provisions

(1) Studies in accredited degree programmes are delivered by Ambis Univerzita, a. s., which operates as a private university-type higher education institution under the name Ambis University (hereinafter referred to as "**Ambis**").

(2) These Rules define the rules for the system of quality assurance of educational, creative and related activities and for its internal evaluation at Ambis, in accordance with Sections 77a and 77b of Act No 111/1998 Sb., on Higher Education Institutions and Amending and Supplementing Other Acts (the Higher Education Act), as amended (hereinafter referred to as the "**Act**").

Art. 1
Purpose of Quality Assurance

(1) The mission of Ambis is to ensure high-quality higher education that meets the requirements of the 21st century. Ambis contributes to the dissemination of education, free thinking and comprehensive support for the creative spirit of human society.

(2) Ambis, its management and its academic staff are aware of the mission of a higher education institution in society. The culture of Ambis is based on the principles of tolerance, institutional culture and the high professional standard of its academic staff. The quality of teaching and of the processes taking place at Ambis is governed by the Act and by international quality management standards.

(3) The aim of quality management at Ambis is to prepare graduates who are able to succeed in the domestic and international labour market, who are able to work with the latest knowledge and to preserve, disseminate and further advance the results achieved so far by humankind in the scientific, technical, cultural and social spheres.

Art. 2
Organisational and Staffing Arrangements

(1) The guarantor of the entire system of quality assurance and evaluation at Ambis is the Internal Evaluation Board (hereinafter referred to as the "**Board**"). Its composition, powers, rules of procedure and other matters concerning the Board are further regulated by the internal regulations of Ambis, in particular the Regulations of the Internal Evaluation Board of Ambis and these Rules for the System of Quality Assurance of Educational, Creative and Related Activities and Internal Evaluation of the Quality of Ambis.

(2) A significant role in the system of quality assurance and internal evaluation is played by the degree programme guarantor. At Ambis, the degree programme guarantor is an academic staff member who is responsible for the quality and proper delivery of the accredited degree programme under the guarantor's responsibility. An important part of quality management consists of indicators of teaching quality, which set standards and enable year-on-year comparison. Quality evaluation is part of the long-term plan of Ambis. Ambis prepares an internal self-assessment report every year, which covers all areas of the activities of Ambis.

(2) In addition to the main areas of internal quality evaluation, auxiliary statistics and survey results are compiled concerning surveys among students, graduates, academic staff and other employees. Other important documents containing the results of internal quality evaluation are regular internal audits.
